

Hempstead Developmental Screening Clinic Flow

MAAs

- Conduct screen with parents using eCW (hand out if necessary)
- Hand out educational materials to parents

Doctors

- Score screen and note results in eCW
- Discuss results with parents
- Make referral to Early Intervention if necessary

(Nurses- Catch any missing screens!)

Patient Navigator

- Work with parents to fill out EI referral form (note that it's a NUMC/NuHealth clinic)
- Follow-up with patient at least once the following week to ensure contact was made
